

What is the “Help the Hopeful™”

Help the Hopeful™ is a charity that originated in 1993 to help medically challenged children in our community of Grant County, helping children who have the most severe illnesses. With loving, hard working parents who are trying to make it without any outside help and many expenses that insurances do not cover. They often experience a great deal of financial debt due to deductibles, prescriptions, auto expenses to transport children to and from various hospitals, or childcare for other children in their families.

Many of the children that we have helped really have battled some severe illnesses; Cancer of many types, brain tumors, open heart surgeries, kidney transplants, lung transplants, autism etc. We receive information from various people in the medical field such as therapists, local pediatricians and special needs specialists that are very familiar with these kids and their parents.

Since the inception of Help the Hopeful, we have helped over 200 children and have raised more than 2.3 million dollars.

This charity, in which every penny raised throughout our fundraising journey; such as the wine tasting, bowling scramble, golf scramble, bike ride, and the largest event being the auction, goes directly to these children and their families. Hopefully we can help lift their spirit as well as relieve some of their financial burden.

Again, we would like for you to know everything is 100% donated to this charity. There are no operational costs or expense of any kind, everything we do is strictly volunteered. We appreciate your continued support!

Sincerely,
Help the Hopeful™

We are a 501(c) (3) charity
